

We are looking for people with the following educational backgrounds:

Civil Engineering **Architectural Engineering**
Sustainable Energy **Mathematical Modelling and**
Computation Mechanical Engineering **Business**
Analytics Electrical Engineering **Information**
Technology Engineering Physics **Engineering**
Light Materials and Manufacturing Engineering
Environmental Engineering Civil Engineering
Architectural Engineering Electric al Energy
Tecnology **Electrical Engineering** Software Technology
Manufacturing and Management Mechanical
Engineering **Mobility, Transport and Logistics** Process
and Innovation

Explore some of the areas you can work with ...

Civil Engineering

- Construction Management and Construction Supervision
- Project Manager, track projects
- Project designer and Project Manager, Bridges & Constructions, Drainage, Geotechnics, Track design
- Technical Project Owner, Track
- Technical Systems Supervisor, Track

Architectural Engineering

- Construction Management and Construction Supervision
- Project Manager, track projects
- Project Designer and Project Manager, Bridges & Constructions, Drainage, Geotechnics, Track design
- Technical Project Owner, Track
- Technical Systems Supervisor, Track

Sustainable Energy

- Technical Systems Supervisor / Transition Manager, Traction Power Supply, Catenary Systems, Equipotential Bonding & Return Circuit, Power Supply

Mathematical Modelling and Computation

- Technical Systems Supervisor / Transition Manager, Traction Power Supply, Catenary Systems, Power Supply, Track
- Traffic Analyst

Mechanical Engineering

- Project Manager, track projects
- Project Designer or Project Manager, Bridges & Constructions
- Technical Systems Supervisor, Track, Catenary Systems and Rolling stock.

Business Analytics

- Analyst

Electrical Engineering

- Project Manager, track projects
- Designer and Project Manager, Electric Power
- Construction Management and Construction Supervision
- Technical Systems Supervisor / Transition Manager Traction, Power Supply, Catenary Systems, Equipotential Bonding & Return Circuit, Power Supply

Information Technology

- IT Architect
- Software Developer
- Software test Specialist
- IT Security Specialist

Engineering Physics

- Technical Systems Supervisor, Track

Engineering Light

- Technical Systems Supervisor, Power Supply

Materials and Manufacturing Engineering

- Technical Systems Supervisor, Rolling stock.

Environmental Engineering

- Environmental Consultant

Civil Engineering

- Construction Management and Construction Supervision
- Project Manager, track projects
- Project Designer or Project manager, Bridges & Constructions, Drainage, Geotechnics, Track design
- Technical Project Owner, Track
- Technical Systems Supervisor, Track

Architectural Engineering

- Technical Project Owner, Track
- Technical Systems Supervisor, Track

Electrical Energy Technology

- Project Manager, track projects
- Project Designer and Project Manager, Catenary and High Voltage supply
- Construction Management and Construction Supervision
- Technical Systems Supervisor / Transition Manager Catenary Systems, Traction Power Supply, Power Supply, Equipotential Bonding & Return Circuit

Electrical Engineering

- Project Manager, track projects
- Project Designer and Project manager, Catenary and High Voltage supply
- Construction Management and Construction Supervision
- Technical Systems Supervisor / Transition Manager, Traction Power Supply, Catenary Systems, Equipotential Bonding & Return Circuit, Power Supply

Software Technology

- Software Engineer
- IT architect
- Software Developer
- Software Tester
- IT Security Specialist
- Solution Architect

Manufacturing and Management

- Process Consultant, Lean Partner
- Technical Project Owner, Track
- Technical Systems Supervisor, Track

Mechanical Engineering

- Project Manager, track projects
- Project Designer and Project Manager, Bridges & Constructions
- Technical Systems Supervisor / Transition Manager, Traction Power Supply, Power Supply, Track

Mobility, Transport and Logistics

- Construction Manager and Construction Supervision
- Project Manager, track projects
- Project Designer or Project Manager, Bridges & Constructions, Drainage, Geotechnics, Track design

Process and Innovation

- Process Consultant, Lean Partner
